File is free to use with no gotchas and no hidden fees. You don't need any special software installed to be able to download your files. Any file in any formatcan be uploaded and downloaded for free. So try our free and simple filehosting service now. It is also allowed to link to the download page from websites and communities. Just upload the file you want to share with your friends and we send you a download link to your file. When you use file, you avoid storing thefile you're sending in your cloud storage or mail server. Unfortunately, we can't make that part free. Simply upload your file and share the link. filehostingprovides an easy possibility for you to send large files to your friends. You can give this download link to your friends by mail or instant messenger. Using file,you can circumvent those limits without paying to upgrade your team chat service. The cost of that data transfer is covered by your internet service or the dataplan on your phone. We have no file size limit. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps. If only we could, we surely would! On the other hand, using file can actually save youmoney. There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends orfamily. You decide who you want to share your files with. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. Files can be downloaded from any computer from our high speed servers. No account or credit card is required to get started. Our service is completelyfree for everyone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and
