If the original is copied without being unfolded, a paper jam may occur. Load the original into the ADF. For 2-sided copy, leave the back side of the second page of the copy blank, and insert the specified paper for the third page of the copy. Select the desired copy settings, and then press the Start key. % Repeat Steps 3 to 5 until all originals have been scanned. Fullcolor copy reproduces colors of the original by mixing toners of four colors yellow, magenta, cyan, and black. By changing the amount of each of the four toners, adjust the tints in the copy. Press the Start key. If part of the image is lost when copied with the specified binding margin settings, reduce the zoom and perform copying. Change the setting for printing on blank pages in Administrator Settings to enable blank page printing. Use PageScope Web Connection or Copy Protection Utility to register a registered stamp. Multiple registered stamps or preset stamps cannot be selected. It is useful to register frequently used overlay images. Check the copy settings. To change the copy settings, press the relevant button. When logged in as a registered user, you can change the icon. If authentication has failed, retry scanning the finger. Press the Start key. The image stabilization operation starts. The correction items on the Touch Panel become enabled. When you specified this, select a paper type. If necessary, it can be changed freely. If all management data is cleared after the authentication method was selected, the histories of the registered users, print, send, receive, and save jobs are deleted. For details on enhanced security settings, contact your service representative. If the paper becomes damp, a paper jam may occur. Store the paper flat, not on its edge. Curled paper may cause a paper jam. Load paper into the left side of the LCT tray so that the side to be printed the side facing up when the package was unwrapped faces

Konica Minolta Bizhub C360 user manual PDF is a file format designed to present documents consistently across multiple devices and platforms.

<https://formations.fondationmironroyer.com/en/node/8241>

It was developed by Adobe 1992 and has since become one of the most widely used formats for saving and exchanging documents. It also contains page layout information, which defines the location of each item on the page, as well as the size and shape of the pages in the document. This information is all saved in a standard format, so the document looks the same, no matter what device or program is used to open it. For example, if you save a PDF on a Mac, it will appear the same way in Windows, Android, and iOS. It can store embedded fonts so you do not need to have the appropriate fonts installed to view the document correctly. PDF documents may also be encrypted so only authorized users can open them. With 3x optical zoom, this Kodak EASYSHARE camera brings the subject three times closer without losing on sharpness. Whats more, this 4.0 MP digital camera gives you amazing results with multiple scene modes such as sport, snow, burst, and backlight. The 1.5inch color display on the Kodak CW330 camera makes it easy to view photos, read menu, and compose shots.

All things considered, this Kodak EASYSHARE digital camera aims to be a great travel companion. I run a library in a high school and I allow the kids to check this camera out regularly. They find the camera easy to use and easy to download the pictures. The only thing that they complain about is that you cant take rapid succession pictures. Thats really not to be expected though with this camera. by llpb.sm.nzs1pn 23 Aug, 2018 Great value. I purchased this model cw330 several years ago and purchased this one to replace it. I like the convenience of being able to take a picture and be able to print it immediately. Works great at reunions, weddings and sports activities. I damaged my original camera and was happy to be able to purchase a good used one. The easy share printer works great, too bad you cant buy them any more. Thanks to ebay I can find used ones. Verified purchase No by eberlein123 24 May, 2016 This little camera is better than advertised. It came needing only batteries and the photo quality is excellent. Picture is good. Point and shoot. The software is very good. Over all the Camera is very good. It also takes the movie. You can also upload your camara, into your computer and send friends, family members photos immediately. The only thing that i regret about this product is that they didnt come out with it sooner. This item doesnt belong on this page. Cancel Thanks, well look into this. All Rights Reserved.
